

Typical Challenges

- ▷ Difficult to create visualizations
- ▷ Lack of interactivity such as "what if" an ad hoc analysis
- ▷ Not portable
- ▷ Not directly connected to data
- ▷ Difficult to organize data from multiple sources

Expected Opportunities

- ▷ Create stunning dashboards with rich content
- ▷ Drill down from an overview to more detail
- ▷ See data graphically or in table format
- ▷ Load files such as spreadsheets or .csv from your local pc
- ▷ See the latest and greatest data from the source
- ▷ See financial, statistical, and calculated metrics at the same time
- ▷ Create new graphics on the fly
- ▷ See the information on your computer or portable device

With SAC You Can

- Centrally administered environment
- Configurable end user security
- Easy to use Excel interface
- Automation of actual data
- Master data automation
- Centrally maintainable logic providing consistency in calculations
- Real time aggregated results
- Book publication producing presentation ready reports
